

TECH VISION

People and Technology Shaping Tomorrow

Thursday & Friday, April 10-11, 2025

FREE – Register to attend one or both days! Seating is limited.

The Tech Vision Conference brings together higher education, community partners, and industry professionals to exchange insights on our evolving people technology ecosystem and its impact on the workforce, organizations, and society.

Connect with students, discuss workforce trends, and share innovative approaches to artificial intelligence, cybersecurity, and digital transformation to shape a better future for our region.
